FREELANCE EXPERIENCE

Freelance Web Developer – Security Remediation & Maintenance

Live Transaction Platform (Local Client)

- Engaged to secure and maintain a live high volume transaction system
- Identified and removed critical security vulnerabilities left by a previous developer (unauthorized access points, hardcoded credentials, weak password hashing)
- Implemented hardening: server-side access controls, prepared statements to prevent SQL injection, and a migration plan for stronger hashing
- With documentation of the process for reliability and transparency

Freelance Web Developer – Responsive Product Website

- Designed and built a responsive marketing website for a client's product, fully functional accross desktop and mobile
- Stack: HTML, CSS, Javascript

EDUCATION

Bachelor of Science in Computer Science – Expected 2027

University of Saint Louis University

Currently 3rd year

CERTIFICATIONS & SEMINARS

Trend Micro – CYBER DEFENSE SOCIETY 2024

Amazon Web Services (AWS) – Cloud Horizons: The AWS Kickoff

2nd International AI Edutech Summit

CORE STRENGTHS

- Strong Work Ethic
- Fast, self directed learner
- Curious & growth driven
- Adaptable
- Clear Communicator
- Problem solver
- Detail oriented
- Accountability
